**Note 1:** Unit comes with #4-600 MCM line, load and neutral lugs installed at the factory.

**2:** If a grounded 5th terminal in the 9 o'clock position is required for network service, a 5th Terminal Kit, catalog number ARP00326 (with -SQD, -CH or -MEP suffix as appropriate) is required to convert.

**Note 3:** 100-135 amp no longer permitted.

Note 4: Added barrel lock provision.
